

PROJECT OF HKBP DISTRICT 3 HUMBANG

In Indonesia around North Sumatera since September to December 2019 there had been more than 30.000 pigs that had died because of a virus known as African Swine Fever (ASF). The virus spread very fast from one pig to another and mostly the breeder in area around Humbang suffered because they did not had any chance to cure their pigs, at that time they did not know what was the disease of the pigs. Some people in Humbang had more than 10 pigs that died at that time. The restaurant that sell pork did not sold any because many people afraid to eat the pork. In some party they use buffalo instead of pig.

We want to propose a project that will help the people in this case also the member of the congregations of HKBP district 3 Humbang. Praeses will coordinate with the pastor in each resort to choose one recipient of the pig donation. Praeses hope that these pigs will grow and can be distributed to other congregation members. HKBP district 3 Humbang have 29 resorts, each resort will get 2 pigs (1 pair). Each pig cost Rp. 800.000,-

Our propose for the donation is $29 \times 2 \times \text{Rp. } 800.000 = \text{Rp. } 46.400.000,-$ around 3.000 Euro (three thousand euro).

Thank you for your attention
Sincerely yours,

Jonson Samuel Hutahaeen
